[Ioncube Decoder 64 Bit](#)

Encoded Files

Below are the results and state of your uploaded jobs. Use the download link to download successful encodings. Your browser should display a file download dialog, but if not, use the browsers "save target as" feature. Non-free encodings are only charged for the first download, and can be downloaded as many times as necessary.

You have **0** credits remaining. What happened to Online Encoder Credits?

When are my files removed?

You can remove files at any time. They will also be automatically removed as follows:

- Test encodings are removed shortly after they expire.
- File uploads that are non-test encodings and have not been paid for are removed at some point after 6 months.
- Paid encodings are removed at some point after 9 months, so be sure to keep a copy of your downloaded files!

Encoding Times

Encoding is usually quick, and most jobs should be complete in under two minutes. In the unlikely event that your job has been encoding for more than a few minutes, cancelling the job and reuploading to encode again should succeed.

Save money by uploading an archive!

Upload a multi-file archive instead of single files and save money. This is recommended as pricing is per upload and not per file.

Encoding Discount

Got a small job to do? Get up to £5.00 off your next order when encoding a small job. Small jobs usually have a low number of files or are less complex encodings to complete and you can see if you qualify for any discount at checkout.

File	Expiry	Created	Encoder	PHP	Status	Cost	Download Cost
☐ ioncuber-loader-test.php	8h	Today 10:06	10.2	7.2	Download	£10.00	FREE (Test Encoding)
